

XDD-360

XDD-360 TECHNOLOGY SUITE

ONE SUITE, MULTIPLE APPLICATIONS

UNIFIED TECHNOLOGY TO eDISCOVER BETTER

XDD-360 accelerates and optimizes XDD eDiscovery services by unlocking the power of our unique blend of world-class, secure technology solutions. From lightning fast processing to AI-driven managed review, XDD-360 couples XDD's propriety technology stack with our core service offerings to deliver tech-enabled results on all matters.

THE TECHNOLOGY BEHIND THE PEOPLE

The XDD-360 technology suite provides everything needed to accelerate eDiscovery projects.

- Maximizes case resources, efficiency and results
- Delivers premium communication / response times
- Simplifies complex eDiscovery workflows
- Optimizes teams for higher quality, efficient cases
- Accelerates matters with advanced technology
- Gives XDD-managed cases a competitive advantage

TECHNOLOGY OPTIMIZED FOR SUCCESS

- Flawless 24 / 7 service with 10 min responses
- Globally deployed for response anytime
- Faster, better execution on projects
- Proprietary AI built-in to accelerate projects and deliver premium results
- XDD as a trusted member of your team

XDD-360 TECHNOLOGY SUITE

- **XDD-Secure** - assures a safe, secure SOC2 compliant environment
- **XEDD Processing** - unlocks lightning fast processing and secure hosting
- **XPM Project Management** - enables tech-driven client management and communications while simplifying complex eDiscovery tasks
- **XDD Esquify** - powers XDD Managed Review with proprietary AI- technology and analytics suite
- **XDD BlackBar** - speeds up and automates native Excel redaction
- **XDD-Mobile** - streamlines mobile processing and discovery
- **XDD-View** - provides robust data-visualizations on eDiscovery progress
- **XDD-PrivAlert** - automates the privilege process saving precious time
- **XDD-Analytics** - maximizes the power of AI, XDD Analytics team expertise and technology assisted review
